

Cannabis and Cancer

A Research Reference - compiled by Justin Kander

Leafjourney Education Library

This reference summarises a large compilation of human case reports and peer-reviewed research on the interaction between cannabinoids and cancer.

The complete, continually updated book is available free online:
<https://freecannabiscancerbook.com>

Search the underlying studies on PubMed directly from the Research tab at <https://leafjourney.com/education>

For education only. Not medical advice. Cannabis products are not FDA-approved medications. Always consult your care team.
